RULING ON ENTITLEMENT¹

On March 24, 2023, Richard Liebell filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that that he suffered Guillain-Barre Syndrome (“GBS”) resulting from an influenza (“flu”) vaccine received on September 15, 2020. Petition at 1. Petitioner further alleges that the flu vaccine was administered in the United States, he suffered the residual effects of his injury for more than six months, and no lawsuits have been filed or settlements or awards accepted by anyone, including Petitioner, due to his vaccine-related injury. Petition at ¶¶ 35, 36, 37. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On April 1, 2024, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent agrees that "petitioner has satisfied the criteria set forth in the Vaccine Injury Table ("Table") and the Qualifications and Aids to Interpretation ("QAI"), which afford petitioner a presumption of causation if the onset of GBS occurs between three and forty-two days after a seasonal flu vaccination and there is no apparent alternative cause. *Id.* at 9.

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
